A large, semi-transparent background image of a white rocket launching from a launch pad, with a bright plume of fire at its base. The rocket is angled upwards towards a dark blue sky filled with white clouds. Below the rocket, a portion of the Earth is visible, showing city lights and cloud formations.

Overview of the Application - Telecommunication Satellites

The screenshot shows a web application titled "SATELLITE TRACKER". The top navigation bar includes links for "World Satellites", "Telecommunication", "ISS Tracker", "Login", and "Sign up". The main content area has a dark background with a starry space theme. A large, semi-transparent white box contains the title "Telecommunications Satellites". Below it, text reads: "Here, you can find how to build your own telecommunication satellite and find it in the world's satellites database." A link "Watch the video below to find out more!" is present, followed by a large black rectangular placeholder for a video.

Telecommunications Satellites

Here, you can find how to build your own telecommunication satellite and find it in the world's satellites database.

Watch the video below to find out more!

Overview of the Application - ISS Tracker

Overview of the Application - Admin View

The screenshot shows the Django administration interface. At the top, there's a header bar with "Django administration" on the left and "WELCOME, IMEN | VIEW SITE / CHANGE PASSWORD / LOG OUT" on the right. Below the header, the page is titled "Site administration".

The main content area is organized into three main sections:

- AUTHENTICATION AND AUTHORIZATION**: Contains a "Groups" entry with "Add" and "Change" buttons.
- SITES**: Contains a "Sites" entry with "Add" and "Change" buttons.
- TRACKER**: Contains "Satellites" and "Users" entries, each with "Add" and "Change" buttons.

To the right of these sections, there's a sidebar titled "Recent actions" which displays "My actions" and "None available".
